STAR Events Manual First Edition Corrections

This correction sheet was inserted in all STAR Events Manuals sold in 2003-2004 and has been posted to the National FCCLA Web site since September 2004. A second edition of the STAR Events Manual has been printed for 2005 and the corrections at the bottom of this page have been made in the second edition.

The first edition can still be used, as there have not been any guideline or criteria changes for the events. ONLY TWO ADDITIONAL CHANGES HAVE BEEN MADE IN THE SECOND EDITION THAT ARE NOT IN THE FIRST EDITION AND THEY ARE NOTED AT THE BOTTOM OF THIS DOCUMENT IN BOLD.

STAR Events Summary Chart (page 6)

On the STAR Events Summary Chart on page 6 Focus on Children Oral Presentation Maximum Time should be **10** minutes. The chart incorrectly lists this as **5** minutes. The specification pages for this event on pages 64 and 65 lists this time correctly as a maximum of **10** minutes.

Chapter Showcase Manual (pages 43-45)

Please note, the oral presentation maximum amount of time is **15** minutes. The amount of time listed on page 43 is **10** minutes. Correct page 43 to indicate the correct time of **15** minutes. This information is listed correctly on the summary chart on page 6 and on page 44.

In addition, the event specifications on page 44 of the manual currently reads 0-**3** divider pages and up to **10** content pages. It should read 0-**6** divider pages and up to **35** content pages. The information is listed correctly on page 45, which is the Chapter Showcase Manual STAR Events Point Summary Form. Follow these guidelines and correct the information on page 44.

Job Interview Point Summary Form (page 83)

The criteria section for the Job Interview Point Summary Form incorrectly lists the criteria for divider pages as 0-**6**. Correct this to indicate the criteria as 0-**5** divider pages as it is correctly listed on the specifications page for this event on page 82.

SECOND EDITION UPDATES (2005)

Allowable Presentation Elements (page 5)

A closed dot has been added to the National Programs in Action event under stacking/overlapping. The closed dot was missing from the elements chart in error. Stacking/overlapping in the National Programs in Action event is allowable. STAR EVENTS PARTICIPANTS SHOULD NOT BE PENALIZED FOR STACKING/OVERLAPPING IN THIS EVENT.

Illustrated Talk (page 74)

In the file folder on the Project Identification Page, chapter name has been added to the list of specifics that must be included on the Project Identification Page. STUDENTS WILL NOT BE PENALIZED FOR NOT INCLUDING THE CHAPTER NAME ON THE PROJECT IDENTIFICATION PAGE, AS IT WAS NOT IN THE GUIDELINES OF THE FIRST EDITION STAR EVENTS MANUAL.
